## RESOLUTIONS OF COUNCIL OF MINISTERS

**29<sup>th</sup> Ordinary Session of the Council of Ministers  
N'Djamena, Chad  
10-11 December 2013**

---

The Council of Ministers of the Africa Rice Center (AfricaRice) during its 29<sup>th</sup> Ordinary Session, which took place in N'Djamena, Chad, from the 10<sup>th</sup> to 11<sup>th</sup> December 2013,

After having listened to the presentations by the interim Director General of the Africa Rice Center (AfricaRice) and his main collaborators;

After having noted:

- The rapid growth in rice production in Sub-Saharan Africa (8.4% per year) resulting from key investments made by farmers, governments, the private sector and the donor community following the 2007–2008 global food crisis;
- That despite this rapid growth, the African continent continues to rely heavily on the world market to satisfy its increasing demand for rice consumption, with imports reaching 12 million tonnes of milled rice in 2012, and costing more than US\$ 5 billion;
- That long-term food security in Sub-Saharan Africa cannot depend on rice imports and that the African continent has the resources to feed itself in terms of rice and eventually to export rice;
- To improve the competitiveness of local rice vis-à-vis imported rice, it is important to make additional investments in the transformation and commercialization of local rice;
